

NEW Screw type coupler

Filter for Wire EDM OMF *Oshitari machine filter* Super Filter Series

Feature

- The new model has a screw type coupler and 2 kinds of coupler are included with this new model. So, it can be used for various models of Wire EDM.
- This filter shows same filtration performance of OMF-340FK-125.
- Longer life of the filter can be expected by the elimination of the metal chip from the filter surface with on - off of the pump.
- Good filtration performance (e.g. Surface roughness, prevention of secondary discharge, the life of ion exchange resin, transparency in the clean tank)

Remarks

- Processing nonferrous metal material (e.g. Aluminum) may cause shorter life of the filter, because its sticky metal chip cover the surface of the filter paper.
- The accompanied packing is disposable and cannot be reused.

Specification

Model No.	OMF-340FK-S
Size (mm)	φ340×300H
Packing	2 pieces in a carton box
Connection system	Coupler type

Applicable Wire EDM Manufacturer

Mitsubishi Electric Corporation
MAKINO MILLING MACHINE CO., LTD.
SEIBU ELECTRIC & MACHINERY CO., LTD.
FANUC CORPORATION

OSHITARI LABORATORY, INC.
